

## 3D Modeling Services

Applus+ advanced 3D Modeling Services deliver high-quality Plant Design Models, 3D CAD Models, and BIM-ready models tailored for energy, resources, and construction sectors. We have a wide range of industry-leading software and a comprehensive suite of tools like Bentley MicroStation, Autodesk Revit, and AVEVA, among others.

### THE Applus+ SOLUTION

Our 3D modeling services leverage industry-leading software such as Bentley MicroStation, Autodesk Revit, AVEVA, and SolidWorks to deliver a range of specialized models.

Whether you require Plant Design Models for complex industrial setups, BIM-Ready Models for construction, or Intelligent and Semi-Intelligent Models for advanced analytics, we have you covered.

Our expertise extends to creating Models for Clash Detection, Isometrics, and PandIDs, ensuring a comprehensive solution for your project needs.

The models are meticulously crafted for high accuracy and can be seamlessly integrated into your existing workflows. With a focus on the Energy, Resources, and Construction industries, our services are designed to meet the most stringent quality and compliance standards.

### Target customers

Our 3D modeling services are targeted at organizations in the energy, resources, and construction industries. Whether you are an engineer, project manager, or a stakeholder

looking for precise and actionable 3D models, our services are tailored to meet your specific needs.

## Key customer benefits

- The precision of our 3D models can reach sub-millimeter levels, depending on the scanning technology, process, and software, and ensure reliable and actionable data for informed decision-making.
- Our use of industry-leading software guarantees compatibility and seamless integration into your existing systems. Our 3D models are designed to be compatible with various CAD and asset management systems.
- The versatility of our services means you can address a wide range of needs with a single, integrated solution, saving both time and resources.
- Overall, our services provide a reliable, efficient, and precise solution for all your 3D modeling needs.
