

Certificate of Conformity - Algeria

The Certificate of Conformity (COC) for Algeria confirms that goods entering the country comply with consumer quality and safety requirements. This certificate is a mandatory document for customs clearance in Algeria and must be obtained for each shipment.

Applus+ has the ISO17020 accreditation with the scope AGREAGE DES PRODUITS MANUFACTURES in Algeria granted by [ALGERAC \(Algerian Accreditation Body\)](#), which authorizes us to issue the [Certificate of Conformity](#) for goods entering into the local market.

THE Applus+ SOLUTION

In March 2011, the Algerian Ministry of Commerce published a notice addressed to all importers reminding them of the obligation to present a certificate of conformity for all shipments entering Algerian territory.

This obligation is governed by Law 09-03 of 25/02/2009 on consumer protection and antifraud and by Decree 05-467 of 10/12/2005, which sets out the conditions and methods of control to ensure the conformity of the imported products.

Applus+ is an ISO17020-accredited body in Algeria and is able to issue Certificates of Conformity or Quality Certificates for exports to Algeria.

To import any regulated product to Algeria, you must hold a document of conformity (Quality Certificate) issued by an authorized Inspection and Certification Body.

Required documents:

- Application form.
- Final / Proforma invoice.

- Conformity documents (test reports, quality certificates, analysis reports, etc.) provided by exporters as per technical requirements.

Assessment based on:

- Documentary review
- Physical inspection
- Conclusion of the assessment

Conformity requirements:

- Datasheets including technical information of the products.
- Laboratory test reports
- Quality documents
