

IRATA LEVEL 3

Applus + is one of the leading industrial, access and safety training companies in Scotland. The Applus + Training Centre in Grangemouth, Central Scotland, has one of the largest training schools in the UK. We are IRATA, IOSH and Quallsafe accredited and our experienced trainers bring a wealth of knowledge and experience to enhance the training experience for all delegates. Bespoke access training courses can also be provided with training being carried out at clients' sites when required. Contact us to discuss your training requirements and arrange and book your course. We provide access training, industrial safety training as well as many other courses • Work at Height Training • Confined Space access training • Rope Rescue Training • Fire Warden Training

THE Applus+ SOLUTION

Once you've completed 5 days of training in the basics of working safely at height utilizing Rope Access, the final day will be for assessment. These assessments are carried out by an independent IRATA assessor. Don't let the thought of an assessment put you off though!

All Rope Access Technicians are required to complete this, so we'll do our very best to ease your worries and help you to work on any points you feel require special attention.

Target customers

This is an experienced rope access technician who is responsible for understanding and implementing the rope access procedures, method statements and associated risk assessments.
