

Magnetic Particle (MT) and Penetrant (PT) Level 1 and Level 2 Course

Our Magnetic Particle (MT) and Liquid Penetrant (PT) Testing Level 1 and 2 Course offers [NDT training](#) designed to meet the requirements of SNT-TC-1A (ASNT) for the qualification of Level I and II personnel in the Magnetic Particle inspection and the Liquid Penetrant Testing methods. This session combines multiple modes of learning to increase the student's body of knowledge while promoting precision, efficiency, perception, and ethical behavior while performing NDT processes.

This course covers both [Magnetic Particle Testing](#) (24hrs) and [Liquid Penetrant Testing](#) (16hrs). The program first delivers MT (3 days) and then PT (2 days) within the same week for a combined 40 hours of total training.

THE Applus+ SOLUTION

This course is modeled after the requirements listed in NAS 410, SNT-TC-1A and has been developed using a wide range of resources. Lectures are accompanied by visual displays, video presentations, and inspection process simulations to challenge the student, promote discovery, and to reinforce the essential attributes of the magnetic particle inspection and liquid penetrant testing process.

Target customers

This course is ideal for individuals seeking the qualification of Level 1 and 2 in the Magnetic Particle inspection and the Liquid Penetrant testing methods.

Key customer benefits

As leaders in the [Non-destructive Testing](#) and Inspection Industry for over 75 years, our comprehensive and practical NDT training courses ensure the qualification and certification of client personnel in compliance with the most stringent international standards, including ISO 9712, SNT TC 1A and NAS410. All course outlines comply with ASNT CP-105.
