

Magnetic Particle (MT) Level 1 and 2 Course

Our Magnetic Particle Testing Level 1 and 2 Course offers NDT training designed to meet the requirements of NAS 410 and SNT-TC-1A (ASNT) for the qualification of Level I and II personnel in the Magnetic Particle Inspection method. This session combines multiple modes of learning to increase the student's body of knowledge with an emphasis on the promotion of precision, efficiency, perception, and ethical behavior while performing magnetic particle inspection processes.

THE Applus+ SOLUTION

Our Magnetic Particle Testing (MT) Level 1 and Level 2 course is modeled after the requirements listed in NAS 410, SNT-TC-1A and has been developed using a wide range of resources. Lectures are accompanied by visual displays, video presentations, and

inspection process simulations to challenge the student, promote discovery, and to reinforce the essential attributes of the [magnetic particle inspection](#) process.

Target customers

This course is ideal for individuals seeking Magnetic Particle Level 1 and 2 qualification.

Key customer benefits

As leaders in the [Non-destructive Testing](#) and Inspection Industry for over 75 years, our comprehensive and practical NDT level 1 and 2 training courses ensure the qualification and certification of client personnel in compliance with the most stringent international standards, including ISO 9712, SNT TC 1A and NAS410. All course outlines comply with ASNT CP-105.
