

Radiographic Testing (RT) Level 1 Course

Our [Radiographic Testing \(RT\)](#) Level 1 course is designed to meet the requirements of NAS 410 and SNT-TC-1A for the qualification of Level 1 personnel in the radiographic testing NDT method. This session combines multiple modes of learning to increase the student's body of knowledge and promote the principles of precision, efficiency, perception, and ethical behavior while performing industrial radiography. Aerospace critical hardware RT processing requirements, including Nadcap Radiographic Inspection, are emphasized within this course.

THE Applus+ SOLUTION

Our Radiographic Testing Level 1 course is modeled after the requirements listed in NAS 410, SNT-TC-1A and has been developed using a wide range of resources. Lectures are accompanied by visual aids, video presentations, and inspection process simulations to challenge the student, promote discussion, and to reinforce the essential attributes of the radiographic testing process.

Target customers

This course is ideal for individuals seeking Radiographic Testing Level 1 qualification.

Key customer benefits

As leaders in the [Non-destructive Testing](#) and Inspection Industry for over 75 years, our comprehensive and practical NDT training courses ensure the qualification and certification of client personnel in compliance with the most stringent international standards, including [ISO 9712](#), SNT TC 1A and ASNT CP-105. All course outlines comply with ASNT CP-105.
