Aerial Photography Specialists

## Live Flare Tower - Remote Access Inspection Solutions -

# Applus<sup>+</sup>

Aerial Photography Specialists

**An Entirely New Perspective**

- Live Flare Tip Inspection
- Structural Integrity
- Corrosion Detection
- Correct Operation
- Flow Effect Monitoring
- Hardware Identification

**UAV Drone  
Visual Inspections**

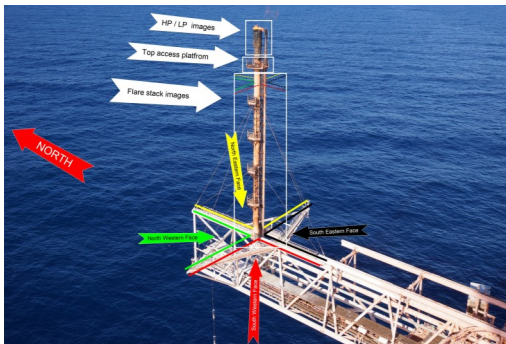

# Giga-Pixel Stitching Technology

**Thousands of Pixels,  
One Incredible Image**

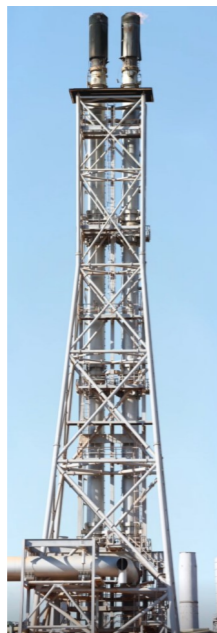

- Ultra High Resolution
- Hundreds of images seamlessly stitched together
- Adds context to close-up detailed images
- Asset reviewed holistically revealing trends or patterns
- Multiple camera angles ensures 100% coverage

### Two Perspectives, One Incredible Outcome

Aerial & ground based camera systems capture multiple different perspectives.

Extremely high detailed imagery captured during live operation delivers inspection insights otherwise unattainable.

**Remote Access Eliminates Human Liability**

Personnel never leave the ground, remaining well outside operational danger zones.

Inspection of live, inaccessible assets without expensive shutdowns or scaffolding.

**Safe  
Precise  
Efficient**

**Comprehensive  
Flare Inspections**
